STOMACH BITTERS. The proprietors and manufacturers of HOS-THES can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained arepu-States, because the article has attained a repu-tation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or biasoning puffery. The consumption of Hotestier's Stemach Bi-ters for the last year amounted to over a half-million hottles, and from its munifest steady increase in times post, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the prepara-tion, and the sunction of the most prominent physicians in these sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its officacy in all cases of stomachio derangements

efficacy in all causes of stomachio derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have provet a Godsend to regions where fever and agus and various other bilious complaints have counted their vistims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of undiseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildly but powerfully, and soen restores them ition essential to the healthy discharge

per sirections on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, deuce of thousands of aged men and wamen who have experienced the benefit of using this preparation while suffering from stemach de-for her infant. Should the period of maternit, arrive during the summer season, the wear of hody and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to hear up under her exhausting trials and responsibilities. Nursing mothers generally perfer the Bitters to all other invigora-ters that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of boddy strength. & All those persons, to whom we have particularly referred above, to wit; sufferers from fever and ague, caused by malaria, diarrhose, fever and ague, caused by malaria, diarrhoes, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hestetter's Celebrated Stomach Bitters a trial.
